PROFILE

A junior software developer skilled in Java and Python, with experience in AI and machine learning. Passionate about new technologies and continuous learning.

EDUCATION

Java Developer

Sep 2022 - May 2024

IT-högskolan, Gothenburg

- 500+ hours of hands-on Java coding and agile methodologies

Python Programming for AI Development

Jan 2025 - Mar 2025

IT-högskolan, Gothenburg

- Developed CNN model for digit recognition (98% accuracy)
- Utilized TensorFlow and hyperparameter optimization

Cloud Development with AWS

Oct 2025 - Dec 2025

IT-högskolan, Gothenburg

- Learning AWS services, cloud deployment, and serverless architecture

Architecture and System Design

Nov 2025 - Present

IT-högskolan, Gothenburg

- Studying scalable system architecture, design patterns, and best practices

Physics

Sep 2011 - Jun 2015

Aleppo University

- Advanced mathematics and analytical problem-solving

PROJECTS

Web Development: Vue.js | Node.js | MongoDB | Docker | GitHub Actions | [Website](#) | [GitHub](#)

Enterprise App: Java | Spring Boot 3 | JUnit | JPA/Hibernate | MySQL | Docker | CI/CD | [GitHub](#)

QuizHub: Vue.js | Node.js | Agile team project (Scrum) | CI/CD pipeline | [GitHub](#)

MNIST Digit Recognition: CNN model (98% accuracy) | Python, TensorFlow/Keras | [GitHub](#)

WORK EXPERIENCE

Android Developer
Nov 2023 - May 2024

Junico AB (Internship)

- Developed app using Jetpack Compose + Kotlin
- Implemented Room Database for offline functionality
- Collaborated in Scrum team with daily standups

Courier, Service Center
Associate & Team Leader
2018 Jun -2024 Dec

PostNord AB

- Acting Leader
- Customer Service and Logistics

SKILLS

Backend: Java, Spring Boot, Python

Frontend: Vue.js, JavaScript, HTML/CSS

Databases: MySQL, SQLite, MongoDB

AI/ML: TensorFlow, ML Models

DevOps: Docker, Azure

Cloud: AWS, Azure Cloud

Methodologies: Agile (Scrum), CI/CD, TDD

LANGUAGES

Swedish: Fluent

English: Fluent

Arabic: Native
